

Pest Control Program

Dear Neighbor,

I would like to introduce myself. My name is Molly Keck, and I am an Integrated Pest Management Program Specialist and entomologist with Texas AgriLife Extension Service.

We are an educational agency and part of the Texas A&M University System. We provide educational programs to the general public on integrated pest management, nutrition, food safety, horticulture and gardening, youth development, natural resources, and agriculture.

I will be providing several (free) informal, educational seminars on the topic of fire ant management and would like to personally invite you to attend. San Antonians spend nearly one billion dollars each year on fire ant control! My goal is to educate you and your neighbors in how to tackle the problem in a safe, cost-efficient manner that provides long lasting results.

Below is a schedule of the Fire Ant Management programs. I would appreciate it if you would please publicize them either at your next neighborhood association meeting or newsletter. All programs will be held:

- May 14 - The Neighborhood Place (3104 Rivas St) West San Antonio (6:30 p.m. to 7:30 p.m.)
- May 15 - Carver Branch Library (3350 E. Commerce St) East San Antonio (6:30 p.m. to 7:30 p.m.)
- May 17 - Texas AgriLife Extension office (3355 Cherry Ridge, Suite 208) NW San Antonio (10:30a.m.-11:30a.m.)

If you would like additional information or have any suggestions for other educational programs, please feel free to contact me at meck@ag.tamu.edu, or call 210/467-6575.

Hope to see you soon!

Molly Keck
Extension Program Specialist
