

## **Lessons From Northside ISD**

Hopefully all of you have received and read the Northside ISD Newsletter though the mail. It is called "Lessons" and has a great deal of information about the school district. The newsletter allows EVERYONE, not just parents of students, to know what is going on in our school district.

This is Northside's 60th year and we are looking for school items that our past graduates might like to share. If you have items, you can reach Bonnie Ellison at the Northside Museum and she will make arrangements to get them. Call the District office number, 397-2100, and ask for Bonnie.

You will notice in the newsletter that we are still anticipating up to 2,000 new students again next year. Our building program goes on. We will build all the schools that we promised to build in the last bond election because we know that the students will be with us sooner or later and we will need the schools.

We are all busy contacting our state Legislators about school accountability measures and funding, and also our federal Congressmen about the 'No Child Left Behind' program. If you would like to know more about our concerns, you are welcome to call either me or someone at the District Office. Have a great springtime.
