

What Neighborhood Association Represents Greatview/Mockingbird?

At our meeting Thursday, January 29, 2009, Councilwoman Cibrian questioned that Vance Jackson (VJ) Neighborhood, Inc. was truly the neighborhood association applicable to Special Project 1402, which is McCombs' petition to close and seize Mockingbird.

The next slide show a screen capture from Interactive Mapping System of the City of San Antonio that clearly shows VJ is the neighborhood association

COSA Interactive Mapping System

The screenshot displays the COSA Interactive Mapping System interface. The title bar reads "City of San Antonio - Development Services - Juno". The main header area contains "City of San Antonio - Planning & Development Services Interactive Mapping System" and the slogan "What do you want to build today?". The interface includes a menu bar with "About", "Layers", "Legend", "Locate", "Selection", "Key Map", "Bookmarks", "Create PDF", "Help", "Settings", and "Exit". A toolbar with various map navigation icons is located below the menu. The map area shows a street network including "MOCKING BIRD LN", "GREATVIEW", and several "IH-10 W ACCESS RD" streets. A blue arrow points to a location labeled "Vance Jackson". The map is overlaid with various zoning and master plan layers, including "C3", "MF33", "R5", and "O2". A "Map Layers" panel on the right lists various layers such as "General", "Parcels", "Zoning", "Parcel Addresses", "Military Bases", "River Improvement Overlay", "Neighborhood and Community Plans", "Historic Districts", "Neighborhood Conservation District", "Neighborhood Associations", "Limited Annexation", "Corridor Districts", "Master Plans", "MDP_1980_89", "MDP_1990_99", "MDP_2000", "MDP_2001", "MDP_2002", "MDP_2003", "MDP_2004", "MDP_2005", "MDP_2006", "VRP_2001", "VRP_2002", "VRP_2003", "VRP_2004", "VRP_2005", "Development", "Transportation", "Political Boundaries", "Bexar County", "Incorporated Towns", "San Antonio City Limits", "San Antonio City Council Districts", "Town ETJ", "SA ETJS", "Water Features", and "2008 Aerial Photography". The "Automatically Refresh Map" checkbox is checked. The "Hints" section is expanded. The status bar at the bottom shows "Scale: 1:1,538", "Map Tool: Zoom In", "Active Layer: * NO ACTIVE LAYER *", and "powered by geocortex".

VJNI is the Neighborhood Association for Greatview/Mockingbird
