Subject: Coyote in the neighborhood

My husband and I reside in Hidden Creek Condominiums. We wanted to alert the neighborhood that there is a very large coyote in the neighborhood.

My husband was driving down Powhattan at about 8:00 pm this evening getting ready to turn onto Turtle Village and the coyote was standing in the middle of the road. My husband put his bright lights on because he wasn't sure what the animal was. When he did, the coyote ran into a yard on Powhattan. My husband was raised on a ranch and has seen many coyotes so there is no doubt that's what it was. He has also seen diseased animals and he said this coyote looked very healthy.

We did call the police and they drove around but did not see anything. We will also call wildlife rescue on Monday to let them know. The police said coyotes have been seen in a lot of residential areas lately. Please post this around the neighborhood as I would not want any person or animal harmed by this coyote.

Thank you for your attention in this matter.
