I did attend the District 8 meeting. They gave the completion dates for the work on Babcock, DeZavala and Prue Rd. That is the only bond money they have and new work will require a new bond issue.

Also, until Hausman is completed, USAA will build a road from 1604. The city will pay \$16 M and USAA will pay \$55 M.

The city is building 3 bridges in that area.

Lights on Hamilton-Wolf and Floyd Curl will be installed by Dec. 2011.

I understand the work on DeZavala starts at the Post Office and goes to Babcock. It will be 2 lanes on each side and a turn lane. Work to be completed in June 2012.

On Prue Rd. from Country Dawn to Cedar Park there will be 2 lanes on each side and a turn lane. Work to be completed in June 2012. Bridge will be widened.

Babcock and Medical to be completed by Dec. 2011.

This is what I got from the meeting. There were really not a lot of people attending. It was interesting and Reed did a good job. I feel he has been a very capable and knowledgeable Council man.
