Hello -

My name is [Deleted] and I live at [Deleted], San Antonio, Tx 78230.

An unfortunate incident happened to my neighbor's two houses down (going towards Wurzbach). Someone went into their home and stole their TV, a watch, and other items. The man goes to work around 5:30am and his wife (who stays home) went to leave her son at school and came back to find that the back door was broken down and items were taken.

Unfortunately and not wanting to point fingers but the neighbors next door to them [Deleted] are suspicious. There is a care giver lady that takes care of an elderly lady and she has her thug son that lives there with her. I really believe that the care giver lady should NOT have her son in that residence (my first concern which could be addressed by elderly services). The elderly lady sometime comes outside naked and says that she needs help (my second concern). There was an incident sometime last year where there was a shooting there and the son was taken to jail. I am sure it the incident was due to a drug deal gone bad. In the past, the son carried on drug dealings as there was constant car arriving/leaving the home.

Thank you for addressing my concern as I feel that our home is venerable also.
