Sorry I am very late in responding to these emails - hadn't checked them in over a week. But wanted to know what "L" looked like. On Sunday April 10th, J had a heavily tattooed young white male approach him in our driveway (corner of Belvoir and Marlborough) and ask for money for gas. He said he was visiting someone in the neighborhood (gave a name, but J didn't recognize it), and needed gas to get on the road. His car was parked down the street and was a maroon sedan (possibly Ford). J said he had a gallon of gas in a can, if that would help him out, but he said that would not be enough. J was on his way out, and drove away and saw the man walking back down the street. Very strange.

When I called, they asked for a description and fortunately (or unfortunately) they were at my neighbors so I was able to give them one. They said they would send a police car to check them out.

I'm sitting here at work and feel almost panicky about people going around the neighborhood and I'm not home. I'm hoping the police can send a car over to the neighborhood and question the two persons of interest.

Yes, time to call police.

There are two of them and they are going house to house on Hopeton, for the second time...putting out cigarettes that they share in yards. I have put a call out.

Forwarding N's email:

Hi E,

I just spoke with KM and she is not friends with L. He came to her door selling magazines - asked a lot of questions about break-ins and such...

Please forward to this info to the neighborhood - for some reason I am not able to reply to all at the moment...

Thanks-N

hi all,

L was just here at my house on Marlborough. The kid is going door to door hustling magazines or some such. I ran him off.

3:15 PM / Tuesday: A young male knocked our door; he said he's C's friend and wants to collect money for a friend. M family, do you know L?

Thanks
E
